Match Remote Control (two match ways)

When match different color remote, the controller become different light type automatically. End user can choose the suitable match/delete ways. Two options are offered for selection:

Use the controller's Match key

Match:
Short press match key, immediately press on/off key (single zone remote) or zone key (multiple zone remote) of the remote.
The LED indicator fast flash a few times means match is successful.

Delete:
Press and hold match key for 5s to delete all match,
The LED indicator fast flash a few times means all matched remotes were deleted.

Light on/off fade time

Long press match key 5s, then short press match key 3 times, the light on/off time will be set to 3s, the indicator light blink 3 times.
Long press match key 10s, restore factory default parameter, the light on/off time also restore to 0.5s.

Use Power Restart

Match:
Switch off the power of the receiver, then switch on power, repeat again.
Immediately short press on/off key (single zone remote) or zone key (multiple zone remote) 3 times on the remote.
The light blinks 3 times means match is successful.

Delete:
Switch off the power of the receiver, then switch on power, repeat again.
Immediately short press on/off key (single zone remote) or zone key (multiple zone remote) 5 times on the remote.
The light blinks 5 times means all matched remotes were deleted.

• V4 for RGB/RGBW

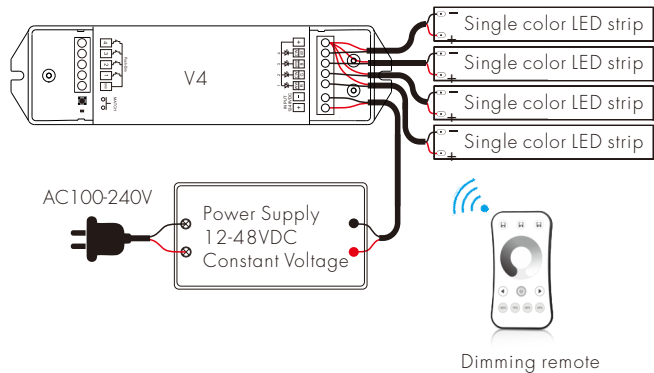

Note: If connect with RGB LED strip, please long press match key for 15s, the controller will become RGB type, the LED indicator blinks 2 time. (Long press match key for 10s will restore to RGBW type)

• V4 for dual color

• V4 for single color

• V4 with four push key for 4 channel single color

Push-Dim control

The 4 push key have 4 channel dimming function defaultly.

- **Short press:** Turn on or off each channel.
- **Long press (1-6s):** Press and hold to step-less dimming of each channel, With every other long press, the light level goes to the opposite direction.
- **Dimming memory:** Light returns to the previous dimming level when switched off and on again.

You also can long press push key and Match key at the same time to select 4 kinds light type, and each light type will have different push key function.

Long press 1 key and Match key 2 seconds, set as 4 channel single color type (default).

Long press 2 key and Match key 2 seconds, set as dual color type.

Long press 3 key and Match key 2 seconds, set as RGB type.

Long press 4 key and Match key 2 seconds, set as RGBW type.

at this time, if the light type has set as dual color, RGB or RGBW, match remote will not change light type.

If you want to cancel light type set, please long press Match key 10 seconds to restore factory setting.
